LICENSING AN AEROBIC ON-SITE SEWAGE FACILITY WITH ANRA

AFFIDAVIT TO THE PUBLIC

THE COUNTY OF _____ *

STATE OF TEXAS _____ *

CERTIFICATION OF OSSF REQUIRING MAINTENANCE AND FOR AN OSSF LOCATED ON TWO OR MORE TRACTS OF LAND

According to Texas Commission on Environmental Quality (TCEQ) Rules for On-Site Sewage Facilities, this document is filed in the Deed Records of _____ County, Texas.

I

The Texas Health and Safety Code, Chapter 336 authorizes the Texas Commission on Environmental Quality to regulate on-site sewage facilities (OSSFs). Additionally, the Texas Water Code (TWC), § 5.012 and § 5.013, gives the TCEQ primary responsibility for implementing the laws of the State of Texas relating to water and adopting rules necessary to carry out its powers and duties under the TWC. The TCEQ, under the authority of the TWC and the Texas Health and Safety Code, requires owner's to provide notice to the public that certain types of OSSFs are located on specific pieces of property. To achieve this notice, the TCEQ requires a deed recording. Additionally, the owner must provide proof of the recording to the OSSF permitting authority. This deed certification is not a representation or warranty by the TCEQ of the suitability of this OSSF, nor does it constitute any guarantee by the TCEQ that the appropriate OSSF was installed.

II

An OSSF requiring a maintenance contract, according to 30 Texas Administrative Code §285.91(12) will be installed on the property described as **(insert legal description)**: Document Number _____
And/Or Volume Number _____, Page Number _____. Acre Amount _____
Or Subdivision Name _____, Block Number _____ and Lot Number _____.

III

Restrictive Water Use Required - Not Required **(Circle One)**

This OSSF requires limitations of water use of _____ gallons per day.
The reduced gallons per day will calculate to _____ spray area to be covered.
The amount of water use per day is not to exceed such requirements.

The property is owned by _____

If **residential**, this OSSF shall be covered by a continuous service policy for the first two years. After the initial two year service policy, the owner of an aerobic treatment system shall either obtain a maintenance contract within 30 days or maintain the system personally. If **commercial**, this OSSF shall be covered by a continuous service policy for the life of the system, and be tested yearly for TSS, BOD and Fecal Coliform. Upon sale or transfer of the above described property, the license for the OSSF shall be transferred to the new owner. A copy of the planning materials for the OSSF can be obtained from the ANRA. This document must be recorded with each tract's property deed affected by the OSSF. If this OSSF is located on two or more separate legal tracts of land, the tracts cannot be sold separately.

WITNESS BY HAND(S) ON THIS _____ DAY OF _____, _____.
